

Travel Often, Travel Well Without Breaking the Bank

Chris Herrmann's Essential Guide for the Midlife Traveler

As we step into midlife, we often become fearful of the unknown and question ourselves believing that travel is only for those who are courageous and well-heeled.

Chris Herrmann was everyman; job, family, long-term marriage and seven grandchildren, when the proverbial rug was pulled out from under him.

When life throws you a massive curve ball you have a choice to make; either hide in the shadows or step out into the light and catch it. Chris chose the latter and began his life-changing journey; a 12 month back-packing adventure around the world.

He left with no purpose, but a purpose far bigger than he could ever have dreamt was soon revealed.

Twenty three countries and hundreds of real-life adventures later, Chris is sharing his travel secrets and insights, inspiring others to step out of their comfort zones and to realize their travel dreams.

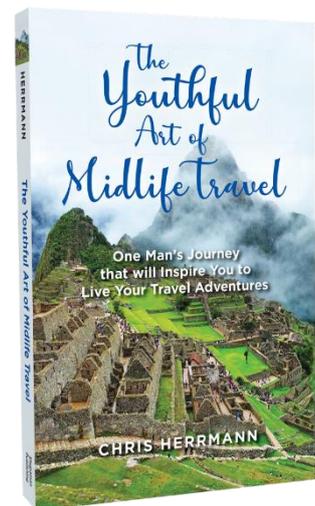

Chris is a sought-after keynote speaker and seminar presenter on the topics listed below.

His popular book, *The Youthful Art of Midlife Travel*, is available now from [Amazon](#).

Chris's forthcoming Online Course, [The Youthful Midlife Traveler](#), is a step-by-step guide to independent and confident world travel.
